QAIO FLEX SIZES

The QAIO Flex is available in three distinct sizes to cater to a variety of preferences and needs: Standard, Active, and Limitless. When it comes to individuals engaging in more physically demanding workouts, opting for a larger mirror size is highly recommended.

The QAIO Flex Standard configuration includes a 40" Portrait Monitor TV, accompanied by a 12.1 TV panel positioned at the top left of the mirror.

For those seeking a more immersive fitness experience, the QAIO Flex Active model offers a larger 55" Portrait Monitor TV, complemented by the same 12.1 TV panel located on the top left of the mirror.

For the ultimate in expansive and dynamic workout environments, the QAIO Flex Limitless model boasts a massive 75" Portrait Monitor TV, again accompanied by the 12.1 TV panel situated at the mirror's top left. This impressive size option ensures an unparalleled fitness and entertainment experience, making it ideal for those with ambitious fitness goals and a desire for maximum impact.

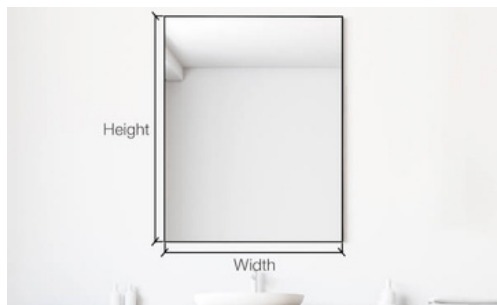

QAIO FLEX MOUNTS

The QAIO Flex has been meticulously designed to offer a hassle-free wall mounting solution, seamlessly integrating into any room while optimizing space utilization. Encased within an elegant aluminum frame, the mirror boasts a "No Gap" design, ensuring a refined and polished aesthetic.

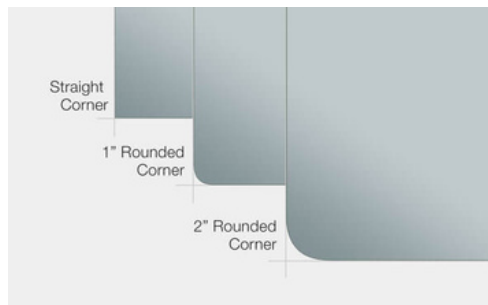

Setting up the QAIO Flex is a straightforward process, taking less than 30 minutes, enabling you to promptly embark on your fitness journey. The QAIO Flex offers four versatile mounting options tailored to your environment: wall mount, lean-on mount, stand-alone mount, and ceiling mount. This versatility ensures that you can effortlessly incorporate the QAIO Flex into your space, regardless of its layout and configuration.

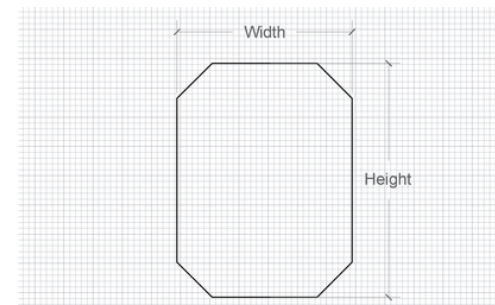

Know your size

Measure the width and height of your favorite QAIO.
The maximum size is 130 inches x 96 inches
(335X244cm)

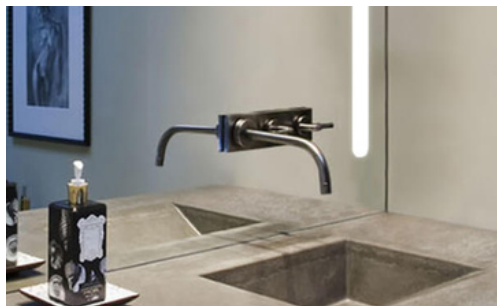

Select the style of the corner

Select the corner of the mirror: straight or round (1 inch or 2 inch radius). The edges of the mirror are polished beautifully.

Need a special size?

If you want a special shape, you can equip a piece of paper template or AutoCAD document. The mirror is cut with a high-precision CAD machine to ensure perfect fit.

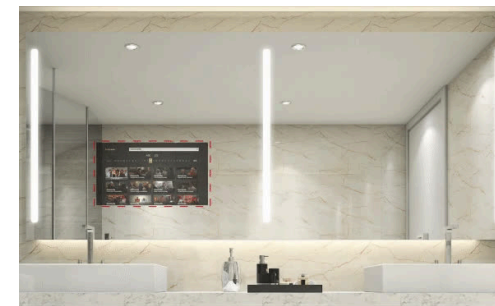

Choose the cut outs

Choose if you need cut outs in the mirror for the faucet or lighting.

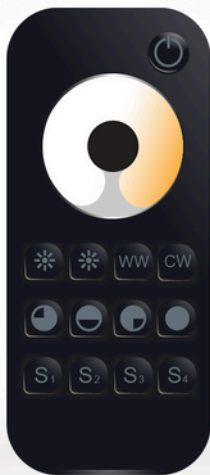

Choose true lighting

Real lighting will make your smart bathroom cabinet mirror a versatile vanity mirror. You can choose the exact position and number of real light bars in the mirror.

TV size and location

You can choose TV sizes from 12.1 inches to a large 98 inches. All TVs use 24V DC. TVs above 21.5 inches are equipped with 4K Ultra HD resolution. You can also choose the location of the TV in the mirror. (You need a distance of 3 inches from the edge of the mirror and the LED light to the wall.)

TRUE LIGHT REMOTE

DETAILS

- This is exclusively for QAIO Mirror LED light remote control.
- With a wireless dimmer, you can conveniently dim the light or change the light color.
- Add a dimmer switch and control the brightness with ease.
- Our dimmers are of high quality, wireless (RF) and you can control the light up to 20FT.
- Choose from the full spectrum between 2700K and 6200K and quickly set the color and brightness with the wireless remote control.

EVERVUE REMOTE

DETAILS

- Replacement control. Not waterproof. Only works with Evervue TV's.

POWER SUPPLY

DETAILS

- Replacement Power supply for QAIO.
- Using other power supplies even with the same specifications, may damage the product and can void its warranty.
- Before ordering a replacement, please contact support@evervue.com and send a photo of the original power supply so we can send the correct power supply.

POWER EXTENSION CABLE

DETAILS

- QAIO has a 20"/5 meter power extension cable. It is available in white and black colors.
