Qaio Mirror - How to adjust settings for the Nightlight
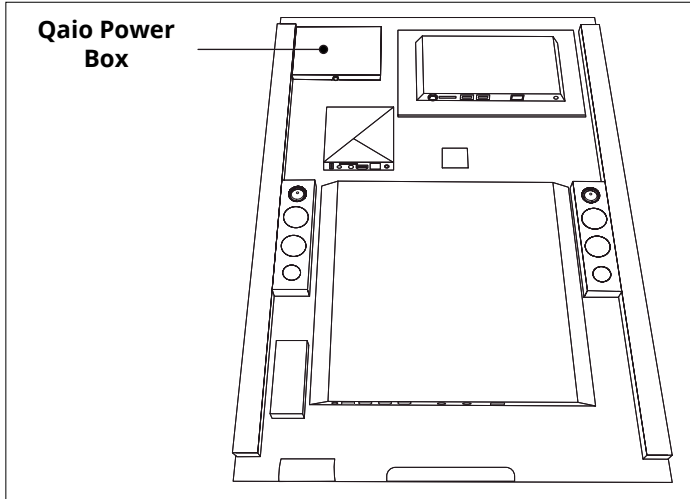

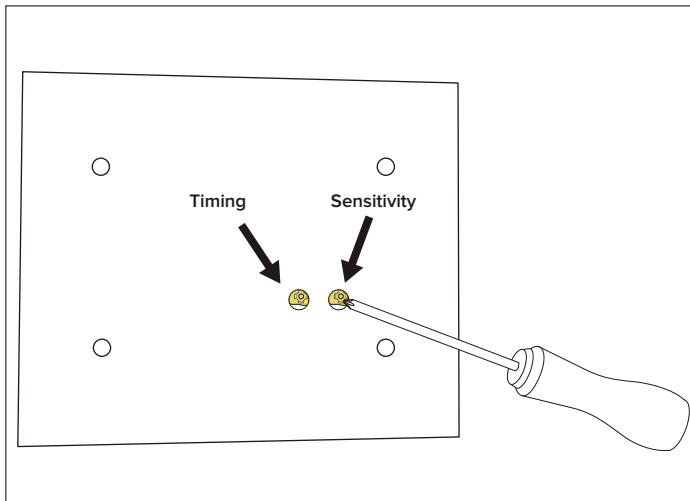

QAIO® Mirror

Qaio Power Box

1 **Take the box from the back of the mirror**
Find the Qaio power box on the top left corner at the back of the mirror.
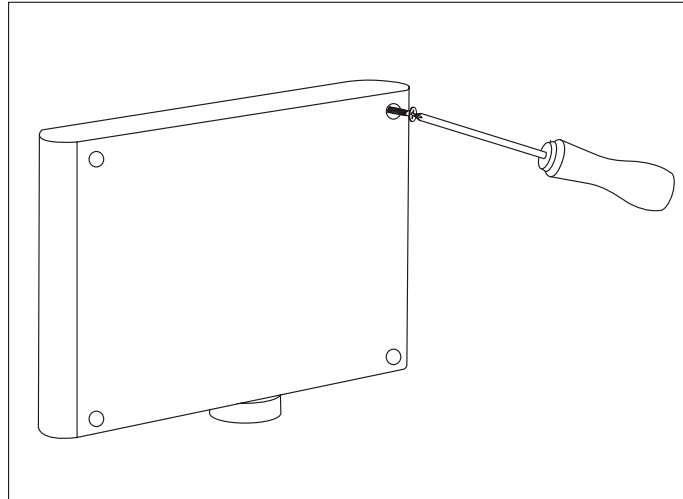

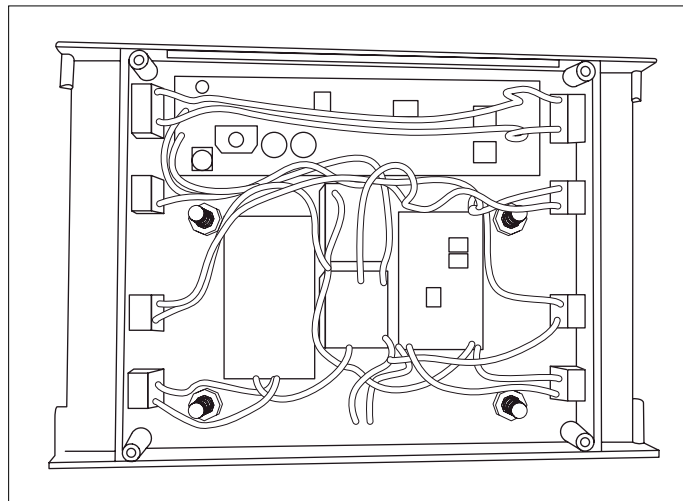

2 **Remove the Cover of the Qaio Power Box**
Use a screw driver to remove the cover of the qaio power box.
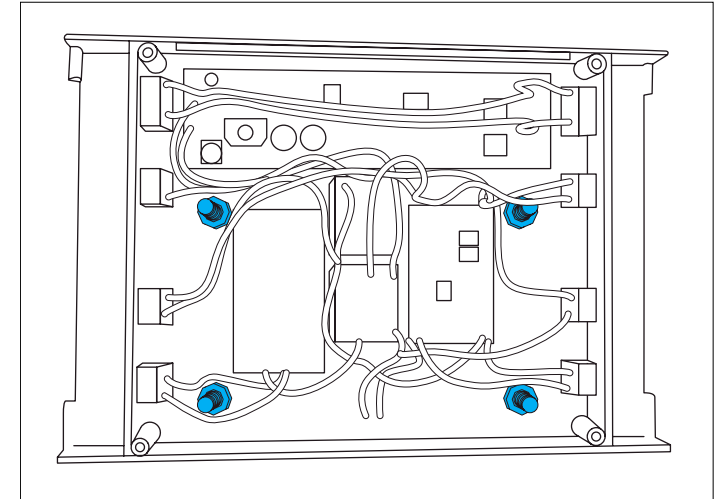

3 **Remove the Screws**
Remove the inner box by unscrewing the bolts shaded in blue.

Timing   Sensitivity

4 **Adjust to Taste**
Flip the inner box. Using a screwdriver, twist the left adjustment screw to adjust the timing and the right for sensitivity.

5 **Assemble the Power Box Back Together**
Put the inner box back to its case.
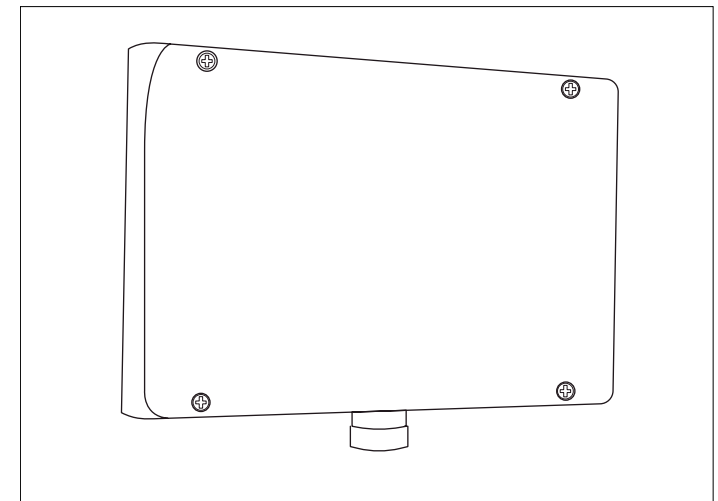

6 **Done**
Cover the qaio power box up and securely tighten its screws.
